WORK EXPERIENCE

Tech & Society Institute, Georgetown University <i>Research Fellow</i>	December 2024 – May 2026 <i>Washington D.C., USA</i>
- Developed membership inference attacks and privacy risk assessment pipelines for anonymized human mobility (Cuebiq, SafeGraph) and user-generated text datasets (Reddit, 20 Newsgroups). - Designed differential privacy methods and disclosure limitation frameworks for machine learning and epidemiological models using high-dimensional mobility and text data Stack: Python (Pandas, Scikit-Mobility, OpenDP, GeoPandas); R (tidyverse, Quanteda, topicmodels)	
Asia Internet Coalition <i>Senior Advisor, Market Access & Regulatory Engagement</i>	June 2023 – May 2024 <i>Islamabad, Pakistan</i>
- Analyzed grey-market dynamics and led engagement with Pakistan Telecommunication Authority's (PTA) Type Approval Directorate to curb unauthorized imports and distribution of consumer technology products. - Drafted industry positions and led engagement on behalf of technology companies with MoITT and PTA on Pakistan's 2021 Personal Data Protection Bill to prevent adoption of restrictive data localisation requirements. - Represented technology companies in engagements with the State Bank of Pakistan and Central Bank of Sri Lanka to identify and resolve regulatory constraints affecting digital payments and platform operations.	
Asian Development Bank <i>Research Associate</i>	May 2021 – January 2022 <i>Singapore</i>
- Designed a cross-sector database integrating health, demographic, and socioeconomic indicators to identify populations at risk of exclusion from COVID-19 vaccine access across ADB member economies. - Worked with six healthcare commissions in Asia-Pacific to develop National Deployment and Vaccination Plans (NDVPs) and resource allocation strategies for equitable vaccine deployment.	
Foreign, Commonwealth, and Development Office <i>Advisor, Policy & Political Engagement</i>	June 2017 – August 2020 <i>Lahore, Pakistan</i>
- Managed the UK's relationships with the Punjab Government, provincial legislature and political parties to support delivery of FCDO's £336 million development portfolio in the province. - Designed and maintained a legislative and regulatory tracker and produced diplomatic telegrams (Diptels), providing political analysis and strategic insights that informed programme delivery and government engagement. - Supported strategic engagement for three UK Secretary of State visits and the Duke and Duchess of Cambridge's maiden visit to Pakistan, advising on stakeholder dynamics and political sensitivities.	
Pakistan Institute of Legislative Development and Transparency <i>Projects Manager</i>	June 2014 – May 2017 <i>Lahore & Islamabad, Pakistan</i>
- Developed digital accountability platforms for provincial assemblies, including public access to MPs' attendance records, debate transcripts, and citizen complaint portals. - Led comparative governance assessments across Pakistan's four provinces, benchmarking government performance on 73 public service delivery indicators and strengthening provincial data collection capabilities. - Designed statistical frameworks and oversaw fieldwork, analysis, and dissemination for three nationwide public opinion surveys on governance and democracy in Pakistan.	

EDUCATION

Georgetown University, McCourt School of Public Policy <i>Masters of Science, Data Science for Public Policy</i>	May 2026 <i>Washington D.C., USA</i>
Fullbright Scholar Computational Policy Analysis, Machine Learning, Privacy & Data Governance	
National University of Singapore, Lee Kuan Yew School of Public Policy <i>Masters of Public Policy</i>	May 2022 <i>Singapore</i>
Lee Foundation Scholar Economics & Development, Political Risk Analysis, Emerging Technologies	
Lahore University of Management Sciences <i>Bachelors of Arts (Honors)</i>	December 2014 <i>Lahore, Pakistan</i>
Deans Honors List Humanities & Mathematics	

TECHNICAL SKILLS

- Data Science:** Python, R, SQL, PySpark, Databricks, Snowflake, AWS S3, Tableau, Shiny, ggplot2, scikit-learn
- Computational Methods:** Supervised & Unsupervised Learning, Causal Inference, Survey Statistics, NLP
- Privacy & Spatial Analysis:** Differential Privacy, Mobility and Network Analysis (Geopandas, NetworkX)
